Brave New World: Type your Topic Here

Textual Evidence/In-Text Citation Example

When I say that you are required to have **three pieces of “textual evidence”**, I will be looking for **three direct quotes from the book and nothing else**. In order to cite these quotes, please follow one of the two formats:

- 1-3 lines in your essay:

“ After the scene in the fertilizing room, all uppercaste London was wild to see this delicious creature who had fallen on his knees before the Director of Hatcheries and Conditioning” (153).

- 4+ lines in your essay:

You must format a quote that takes up 4+ lines like a block quote. See my example below.

“ After the scene in the fertilizing room, all uppercaste London was wild to see this delicious creature who had fallen on his knees before the Director of Hatcheries and Conditioning--or rather the ex-Director, for the poor man had resigned immediately afterwards and never set foot in the Centre again--had flopped down and called him “my father” (153).

Then, the rest of your paragraph will return to the normal format.
